## Pfizer propofol and fentanyl ordering update

Pfizer has made a change in their policy to what we communicated yesterday. Please see below for instructions on how Pfizer is handling ordering for propofol and fentanyl.

### Fentanyl:

Please order fentanyl through your normal ordering channels through Cardinal Health. This is a change in Pfizer's policy that they previously shared with us. Fentanyl continues to be in short supply and fair share allocation will still apply. Pfizer will execute limited direct order shipments for emergency orders.

### Propofol:

Effective Monday, April 6, 2020 Pfizer announced a change in how customers should order Pfizer's propofol. Due to surging demand during the COVID-19 crisis, Pfizer is moving to direct shipment only for propofol. Given the limited market share and the evolving patient needs in COVID-19 epicenter hospitals, Pfizer believes this is the best way to get supply to patients who need it.

If you have any questions, or to order the below products, please follow up with Pfizer Injectables Customer Service at 1.844.646.4398.

CIN	NDC	Description	V#	Vendor Name
3726338	409469924	PROPOFOL SD 10MG/ML 10X100ML	57147	PFIZER INJECTABLES

3726346	409469930	PROPOFOL SD 10MG/ML 5X20ML	57147	PFIZER INJECTABLES

As a pharmaceutical distributor, Cardinal Health does not make clinical recommendations and is not in a position to recommend alternative products that meet your individual patient's health needs. As a licensed healthcare professional, you are solely responsible to determine when and if an alternative product is appropriate for the treatment of a patient.
